Mr H Chapman 1348 Pine St Philadelphia

Dear Sir yours of the 25th at hand it will take
about 15 days to do the work at your cottage
on signal hill the paint is all peeling from
the cornice and in order to stop it peeling
after being painted you will have to use
Raw oil paint which will take longer to dry
but is good deal better & lasts

The USN Marine White is manufactured by
Billings King & Co New York it is the highest
Price paint in the market and the best
as it is made with raw oil they will guarantee
it not to peel or chalk

if you remember it was a very rainy season
when you asked me about painting your cottage
and the first coat would not dry hard enough
against the ^{bumping} clatter to keep it from peeling
when the next coat was put on we can stop your
plastering for you now is a good time to paint
there is too flies to get rid of it
